Tips

PARTNERSHIP:

- Partnerships among international NGOs and with local partners are highly valued
- Given the narrow focus of the Call, small number of partners is preferable to simplify grant management & contain costs

NEEDS ASSESSMENT:

- Relatively simple interventions - Technical reconnaissance led to narrowed down list
- Municipalities are clear on what they can expect from these interventions: indicative list of medical equipment and technical standards defined
- Municipalities technical departments ready to facilitate further needs assessments carried out by INGO partners

by the European Union
